Feedback from your expert

"Privileged location on the edge of one of the most beautiful beaches of the island, charming and welcoming structure... It enjoys superb views of the le Morne mountain, Hotel Lux Le Morne definitely has numerous advantages for it and has harmoniously balance its infrastructure: a part is used for animations while the other remains calm no matter what happens. The establishment is therefore suitable for all styles of customer. We only regret that there is no golf cart to move given the length of the property. In 2011, the hotel brought a new concept. For example, a travelling bar is prepared every day in a different place, or again, a complimentary phone booth is available for international calls. Another scene: the Lux* coffee which proposes its own coffee, produce in one of the hotels of the group, the Lux*Belle Mare."*
