Honeymoon | All Inclusive | Relax | Family | Spa | Golf

The LUX* Tamassa Resort is an all-inclusive 4-stars hotel, nestled on the south coast of Mauritius, in the wilderness of Bel Ombre. The hotel offers an all-inclusive concept, ideal for families. The environment is a kind of postcard; a long avenue of coconut trees, sugar cane fields deep green backdrop and the turquoise waters of the lagoon border from the sandy beach! This heavenly environment also makes it possible to practice many activities. The traditional architecture of the hotel gives it a Mauritian charm and warmth. The decor is a subtle combination of clean contemporary lines and bright tropical colors.

Feedback of your local expert

"On arrival to the hotel, the sight on the fields of sugar canes goes on up to mountains, which cut the horizon. The internal set of the hotel is a mixture of contemporary lines and tropical colors in modern architecture. A small advice: ask for a meeting with Shannon, in her expert hands you will soon forget all of your stress! Numerous treatments are à la carte but the Mauritian massage is definitely worth it. Along with the background of Sega, the massage is done with hands, forearm and bamboo which is administered with aromatic oils."

NATURE: VISIT THE SOUTH

In the wild south, we encounter three natural phenomena including the Suspension Bridge, the blower and the rock crying. The last two nécessitants the south swell for their names to be justified.

The blower, you can sit for hours watching the waves crashing on the cliffs with extraordinary force expelling seawater jets at any splash.

A mandatory stop at Grey who remained very plain with its cliffs, its small beach, offers a splendid natural view; the rollers crashing, iodine and breath clean air, nothing like to relax with mother nature.

Then discover the reserve Vanilla, a large entertaining space, which will please young and old. The star of the place is the crocodile which relaxes in large pools.

The bat endemic also mixes in the fun. As it is, why not let tempted by a crocodile steak in the restaurant of the reserve?

Back on the road to discover a series of beautiful beaches, and to Riambel Bay Jacotet. A sailor cemetery sharing beaches hidden behind hedges of trees. At the risk of repeating, sweeping views of the sea, a translucent blue, strange impressions of being in an animated postcard!

NATURE: VISIT THE SOUTH COAST WITH ITS DESERTED BEACHES

Certainly our favorite area of the island. A long ribbon of asphalt crosses the south, sea side. We cross the colorful villages where the pub panels for soft drinks appear in all colors. When these are not the flags of political parties that will brighten roundabouts and other street corner in the upcoming elections!

To win the Blow Hole, where Aeolus invites happily, we must cross vast sugar cane fields. One of the great specialties of the island. It reminds us of one of these sirandanes - Mauritian or guessing - very poetic: "dilodibout? Cann "(What of standing water? From sugar cane).

Then we discover the reserve Vanilla, a great fun place appropriate for both small and large. Here, the star is the crocodile. He relaxes in large ponds. And it may also be smaller in our hands, of course under the eye of team members. Beautiful animals.
