Feedback of your Local Expert

« The St. Regis is an invitation to travel through time with its architecture with colonial influences that plunge you in yesterday Mauritius. After a stint in Asia thanks to the restaurant 'the floating market', head towards the beach to fill yourself with thrills with kite surf courses available for both young and old. Also to complete your stay, a visit to the national park of the Gorges of the Black River and the waterfalls of Chamarel is definitely a must. After a busy day, a small well deserved stop at the Iridium Spa to get pampered and enjoy the care provided by professional. »
